L02: PhD Supervision

Things we cover in this session

- introduction in supervising doctoral studies
- functions of PhD supervision and the role of supervisors
- things that are involved in supervising PhD students
- typology of PhD works
- doctoral research supervision models
- conceptual approach towards PhD supervision.

Things you need for this session

- W02-1: Supervising Doctoral Studies

Things to take home from this session

At the end of this session you should be able to

- define terms such as doctoral candidate, dissertation writing, and PhD supervision
- know the functions of PhD supervision, the role of supervisors and the outcome of doctoral studies
- realize issues related to the nature and purpose of PhD studies and the skills needed to support PhD research
- differentiate the traditional PhD route from the PhD by published work (PW) route
- get acquainted with different doctoral supervision models
- discern the different conceptual approached towards the PhD supervision
